

THE WHITE HOUSE
WASHINGTON

MAR 28 1972

Dear Governor Landon:

It was good to receive your kind letters of February 11 and March 20 expressing your support for my trip to China and for the concepts contained in my Report to the Congress on Foreign Policy.

My prime motivation in making the journey to China was to start the long process of building a bridge of understanding between our country and the People's Republic. I believe that a dialogue toward that end has now begun. The support of distinguished Americans like you is most gratifying, and you have my warmest thanks.

With very best wishes,

Sincerely,

/RN/

Honorable Alfred M. Landon
